I, the undersigned Official Veterinarian of the Canadian Food Inspection Agency (CFIA), duly authorized by the Government of Canada, hereby certify that, after due enquiry and to the best of my knowledge and belief, the bird(s) described below meet the following requirements:

1. The bird(s) for export originated from Canada, a country free from highly pathogenic avian influenza and velogenic Newcastle Disease for the past six (6) months prior to export.
2. The bird(s) for export was/were kept in isolation in a facility approved by the CFIA since they were hatched or for the 21 days prior to shipment and showed no clinical signs of infectious diseases, including avian influenza, during the isolation period.
3. During the isolation period of number 2 above, all birds, or a sample of birds from one consignment were subject to:
  - a) Virus isolation test for avian influenza virus and the test results are negative. The sample size should not be fewer than 30 birds (pooling is permitted with not more than 10 samples in each pool);

**OR**

  - b) Serology test for H5 and H7 avian influenza virus, using agar gel immunodiffusion test (AGID) or haemagglutination inhibition test (HI) and the test results are negative. The sample size should not be fewer than 20 birds and the samples must be taken for testing within 7 days of export.

**OR**

  - c) RT-PCR test for avian influenza virus and the test results are negative. The sample size should not be fewer than 30 birds and the birds must be individually tested.
4. The bird(s) for export was/were examined on the day of export and found to be free from any clinical signs of infectious or contagious diseases.
5. The bird(s) for export is/are transported in new and clean containers, according to IATA requirements.
6. The time between the signing of this document and arrival in Singapore shall not exceed seven (7) days.
